"Heidi is one of the most visually creative persons that I know. She is simply put, an amazing designer. She quickly grasps whatever ideas are thrown at her and comes up with an array of design ideas that are so much better than you could have ever dreamed up. She is great at knowing how her designs will work out within budget and time constraints. When I left PREP, Heidi designed my logo and business cards. They were so well done that they are constantly being shown around to other people wishing they had something that looked that great. Heidi is great to work with. Fun, super intelligent, passionate about her work and constantly impresses everyone around her. I give her the highest recommendation possible! cheers...Steve Gilbert nw-BIG"
